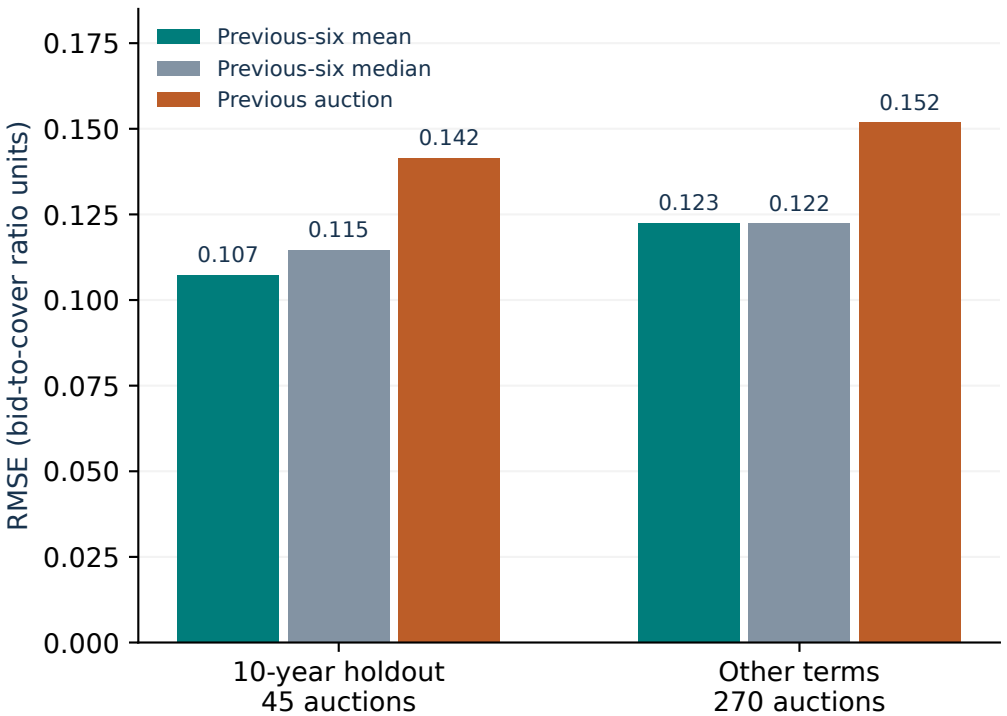
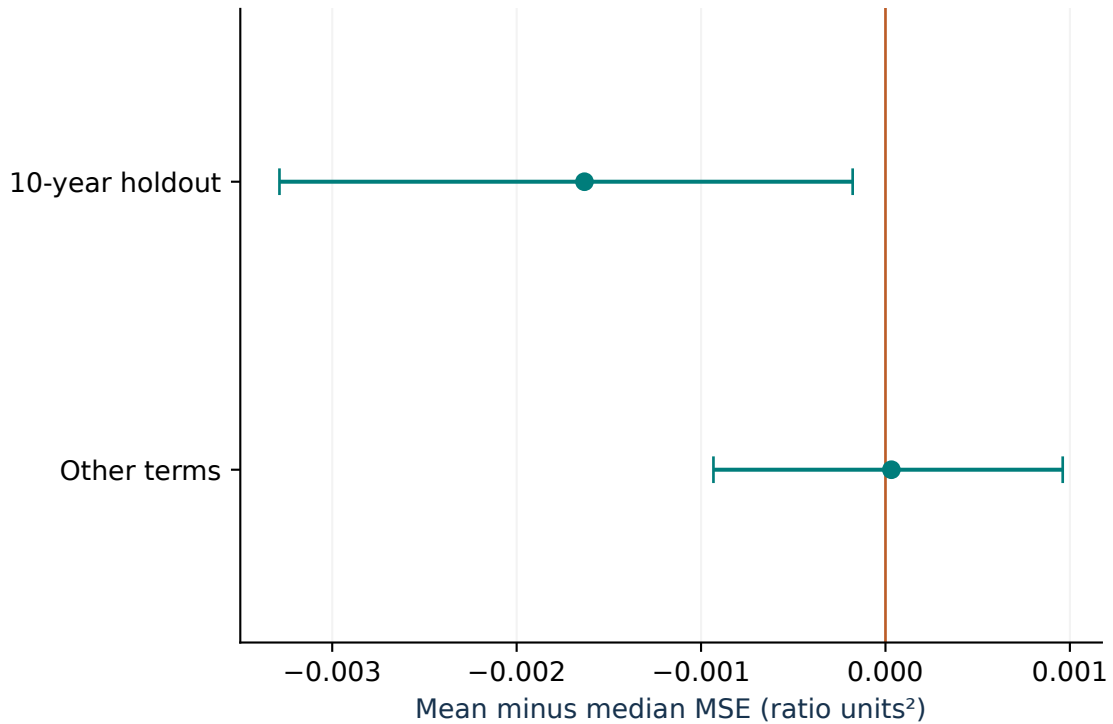
The finite search chose a simple history rule

RETROSPECTIVE ANNOUNCEMENT-FIELD EVALUATION | 2023–2026 Q3; no trading-return claim

Simple baselines remain competitive



A modest, cohort-dependent difference



Selected: previous-six same-term mean. No10-year rows fit models or select parameters; earlier10-year outcomes remain available as lags.
Intervals:2,000 calendar-quarter block bootstrap draws over15 quarters. Other terms include20-year auctions absent from fitting.
